Hi All,

I have attached a few slides illustrating the information that is available for reviewing ORD's national research program draft list of products—and perhaps more importantly for this group—the CCTE led products. I have also attached a an older version of the ORD spreadsheet described in the slides and a derivation of the spreadsheet that might be useful for the review process. I look forward to talking with all of you later today.

John

To all,

Per the emails that were distributed last night, I am trying to find a time that works for most. I know that all of you may not be able to meet at this time, but I wanted to get something scheduled as soon as possible to go over this review effort. If you are unable to make it, please feel free to give me a call when you are available. Also, to facilitate your review, I will be sending a spreadsheet tomorrow that should be very helpful from an organizational standpoint.

Best Regards,
Reeder
